WELCOME TO

MAK POOLS & GARDENS LLC is a specialized and certified swimming pool supplies and service provider located in Dubai, United Arab Emirates.

We offer a full range of exceptional products, equipment, and services that extensively cover the hygiene, functionality, and aesthetics of swimming pools and backyards.

Our dedicated showroom houses swimming pool essentials such as pumps, filters, covers, lights, tiles, cleaning tools, testing kits, pool fittings, sanitizing chemicals, and other specialized equipment such as automatic pool robots, non-chlorinated systems, and more. In addition, selected items are available on our online platform PoolStore.ae.

We also provide weekly swimming pool services for properties throughout Dubai; each visit consists of cleaning, inspection, and preventative care, ensuring chemical balance, clarity, and efficient functionality.

As a member of the Pool & Hot Tub Alliance (PHTA); quality standards are never compromised, and customer satisfaction is our utmost priority.

WE OFFER:

General Supplies for All Pool Types

Pool Cleaners & Automation

Safety Covers & Fences

Annual Maintenance Packages

Leak Detection & Rectification

Old to New Restorations

Chlorine to Non-Chlorine Conversions

Specialized MEP Consultancy

Chemical Sales & Delivery

POOL PUMPS

SACI PUMPS is a company that specializes in the innovative design, production, and distribution of pumps, hydraulic systems, and water-management equipment for residential and commercial use.

For over 40 years, they have been focused on expounding marketing demands with high-quality products and reliable service.

WINNER

Self-priming pump for swimming pools with large prefilter generating a very high filtering capacity.

Available from 0.5 HP to 3 HP.

OPTIMA

Self-priming pool pump with prefilter & excellent hydraulic performance. Ideal for smaller pool installations.

Available from 0.25 HP to 1 HP.

CF-4

Cast iron centrifugal pump with an inlet prefilter and motor power at 1450 rpm. Ideal for large filtration equipment.

Available from 3 HP to 25 HP.

SIGMA

A horizontal multicellular centrifugal electropump, ideal to use as a pressure unit with a small or medium flow.

Available from 0.75 HP to 1 HP.

MAGNUS

Extremely quiet, self-priming swimming pool pump with high flow motor engine capabilities ranging from 1450 rpm and 2900 rpm. Ideal for large filtration installations.

Available from 3 HP to 15 HP.

NOVA/FEKA

Submersible pumps ideal for domestic use in filtration systems in isolated locations such as underground pump rooms, basements, garages, and for emptying pools.

Available from 0.28 HP to 0.75 HP.

HPE AIR BLOWER

Aluminum blower pumps that produce a constant stream of air bubbles designed for swimming pools, spas, water treatment, drying cars, ventilation, dust extraction etc.

Available from 0.6 HP to 4 HP.

SAND FILTERS

Sand filters are easy to operate and maintain, with a multi-port valve that allows you to control the flow of water and a pressure gauge to help you monitor the filter's performance.

Both Astral and Ariona Pools offer high-quality sand filters that are constructed with durable, corrosion-resistant materials that come in a range of sizes to suit different pool sizes.

www.astralpool.com

www.arionapools.com

CANTABRIC FILTER (ASTRAL POOL)

The advanced technology developed for the Cantabric filters offers extraordinary reliability in operation with low maintenance, allowing the filters to run safely with optimal pool filtering for many years.

Supplied with pressure gauge and manual air vent for hassle-free installation and use.

Available in side-mounted or top-mounted models to adapt to the pool type and available pump room space.

SIDE MOUNTED

TOP MOUNTED

NOTE: Top-Mounted filters are sold together with a standard multiport valve. For Side-Mounted filters, multiport valves are available separately according to the size of the filter.

MULTIPORT VALVE WITH FILTER CONNECTIONS

Manual multiport valves come attached with six channels that allow the water to move in multiple directions according to your requirement.

It features a locking hand that is helpful to control the direction when you want to FILTER, BACKWASH, RINSE, WASTE, CLOSED, or RECIRCULATE water.

PACIFIC POOLS RESIDENTIAL FILTER (ARIONA)

Filter for private pools, made with industrial standards, reinforced fibreglass tank, UV resistant treatment. Includes pressure gauge and 6 ways multiport valve.

- Black lid with 8 screws.
- Folding diffuser to facilitate the loading of filtrant media and access to interior parts.
- Drain set designed to facilitate the emptying of water and sand.
- Internal air purge to prevent the formation of air bubbles inside

SALT CHLORINATORS

BSV ELECTRONIC SL, started in 1984 as a family business. They design and produce specialised salt chlorinator units for public and private swimming pools.

Their commitment is to design equipment to disinfect swimming pool water without the use of harsh chemical products.

BS POOL

www.bsvelectronic.com

WHY SALT CHLORINATION?

Lower chlorine concentration
People who are sensitive to chlorine often report fewer irritations

Reduces maintenance costs
Due to lower concentration of chlorine, maintenance costs are reduced significantly

Cuts-down energy bills
BS Pool salt chlorinators operate on a lower electrical consumption

Lower salt than a tear drop
Pool water is softer on the swimmer's skin and swim-wear

Less frequent maintenance
Pool maintenance is more "hands-off" with the BS Pool system

N-BSsalt CHLORINATOR

5000 Hours

Low weight

Low Consumption

Box

Compact saltwater chlorinator in a waterproof box that is easy to install.

- Lightweight
- Low electrical consumption
- Low operating temperature
- Produces 10-35 grams of natural chlorine/hour
- Run-time of 5,000 hours between electrolysis cell changes

EVOLINK CHLORINATOR

Long Life Cell

10,000Hours

Low weight

Connectivity

Automatic

Temperature

Box

Low Consumption

Touchscreen saltwater chlorinator with integrated home automation functions.

- WiFi-enabled connectivity
- APP available for IOS and Android
- Low weight and electrical consumption
- Produces 15-35 grams of natural chlorine/hour
- Run-time of 10,000 hours between electrolysis cell changes

CHEMICAL DOSING SYS-

- Automatic pH and chlorine dosing device for regular water treatment
- For residential and commercial swimming pools
- Fixed on a control panel with magnetic pumps and sensors

IONIZATION SYSTEMS

ALIGATOR system is a chlorine alternative, eco-friendly, cost-effective water purification system for both residential and commercial swimming pools.

Reduces reliance on pool chemical use by up to 80%

Offers substantial savings over conventional chemical treatments

Reduces maintenance time

Aligator uses natural elements to eliminate algae and bacteria in your swimming pool

Aligator Systems are:

Easy to use

Economical

Non-corrosive

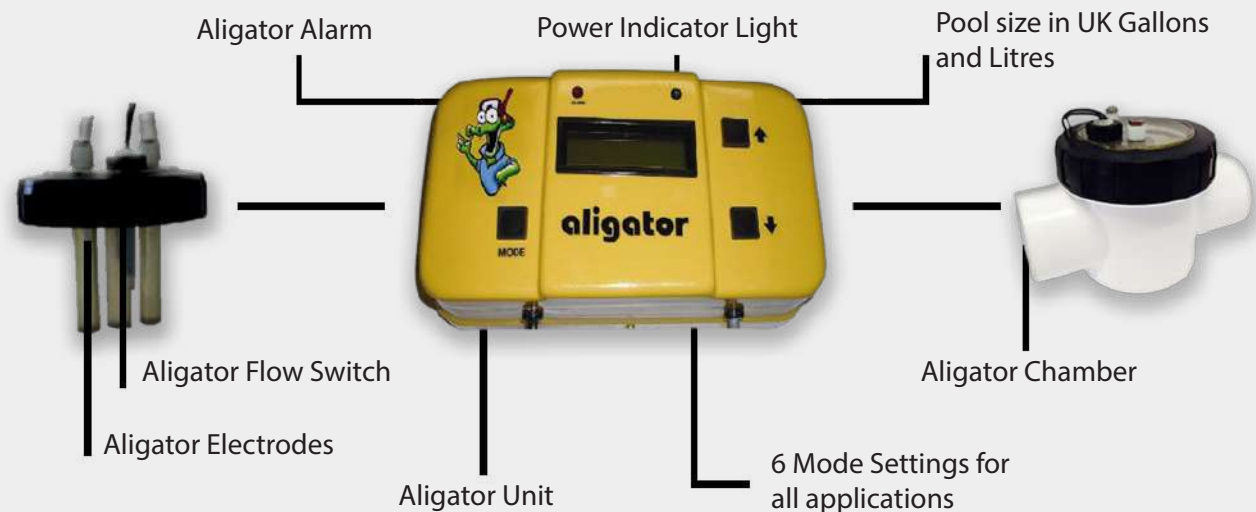

Safe for allergy sufferers

Environmentally friendly

How aligator® works...

- 1 Aligator works by harmlessly charging ions in the water which creates a residual disinfectant / algaecide throughout the whole pool. No other system other than chemical saturation will do this.
- 2 Aligator programmes itself. Once the size of the pool has been entered into its computer, it continuously monitors the condition of the electrodes and the pool water, and will alert the user if any attention is needed by a flashing a red light and an audio alarm.
- 3 In addition, stored in its data bank are the total working times of the pump, electrodes and main power supply.

NOTE: We have single and double chamber units available to accommodate various pool sizes for Aligator's fully automated water purification system.

POOL HEATERS & CHILLERS

Whether it's an indoor or outdoor pool, maintaining the right temperature in any season is essential.

We supply heaters and heat/chill pumps for various pool sizes.

www.elecro.co.uk

www.kelvinprodubai.com

*Heaters and Heat/Chill Pumps are sized according to location, surface area, volume, and bather-load. Call us for sizing details and assistance.

ELECRO EVOLUTION 2

A fully titanium heater, this is the latest and upgraded version of the original Evolution. Boasting 100% efficiency, safety, and above all, reliability, this compact unit will effortlessly heat your pool or spa to your desired temperature.

- Electric swimming pool heater
- Models available in 6kw/9kw
- Temperature thermostat & overheating sensor included

ELECRO SFS JOEY

Reliable, accurate, and efficient, the SFS Joey fully titanium heater by Elecro is the ideal choice for a long-lasting heater for any application where the water contains high TDS, debris-laden water, and flow rate is reduced. Ideal for commercial pools.

- Electric swimming pool heater
- Models available from 18kw - 120kw
- Fitted with temperature thermostat and overheating sensor

KEVIN PRO HEAT PUMP

Top-tier electric swimming pool heat-chill pumps combining hygiene and aesthetics with dual heating and cooling functionality. Sustainable and produces up to five times the energy it consumes, saving energy and operating costs

- Models available from 25kw - 55kw
- Fully self-contained units, easy to install and maintain, reliable, and safe

BUBBLE COVERS

A bubble/solar cover will keep the pool clean and maintain the temperature of your pool so it is ready to use anytime. It is a great investment for every pool owner as it will prolong the swim season at a lesser cost.

WHY SHOULD I USE A BUBBLE COVER/SOLAR BLANKET ON MY POOL?

Eliminates
Temperature
Loss

Longer
Swim
Season

50% savings
on chemical
usage

Reduces
evaporation
by 80%,
saves water

Blocks debris
& keeps
the pool
clean

When used with a heater or heater/chiller, a bubble cover helps to maintain the desired temperature. They are made from a durable polymer material with thousands of tiny sealed air bubbles.

They float “bubble side down” on the surface of the water when the pool is not in use which prevents dust and debris from entering the pool.

FEATURES

- Prevents evaporation
- Limits the use of chemicals
- UV resistant
- Flexible for easy rolling and winding
- Large-format width up to 5 meters
- 500 micron pool cover (overall thickness)
- Blue top layer for discreet look and black bottom layer to maintain the water temperature
- Reflects the direct heat from the sun to prevent algae growth
- Reduces filtration/pump time use by up to 50%
- Eliminates water evaporation by up to 98%
- Reduce chemical consumption by up to 70%
- Reduces energy consumption by over 50%
- Prevents debris contamination
- Cost-efficient in the long run
- Rollers available on request

UNDERWATER LIGHTING

PROFESSIONAL POOL PRODUCTS offers the latest in LED lighting technology, the widest spectrum of color choice, and provides excellence in quality and unique design.

These LED lights are contemporary in style and come with remote control options with built-in transformers – making it very easy to use for pool builders and end-users.

Fits any conventional niche
Longer-lasting

REMOTE CONTROL

RC04 STEP-DOWN TRANSFORMER + RECEIVER

The RC04 takes care of all your underwater LED lights into one compact device up to maximum 220W total, be it a pool or a spa.

Equipped with a remote control and built-in receiver, making it easy and convenient to control all the lights and select from an array of colors.

It can also be used to activate two additional auxiliary items, such as a water feature pumps or garden lights.

OUTDOOR FURNITURE

Balliu – Excellence in Commercial
Outdoor Furniture Since 1968

With over 50 years of expertise, Balliu designs and manufactures high-quality, durable, and eco-friendly commercial outdoor furniture. Trusted worldwide, their innovative and stylish solutions ensure lasting performance for any outdoor space.

Noa Sun Lounger

- Sleek & Modern Aesthetic – A slim, contemporary design that complements any outdoor space.
- High Durability – Made from fiberglass-reinforced polypropylene resin, ensuring long-lasting performance
- Reinforced Structure – Ribbed surface prevents deformation and enhances stability.
- Safety Features – Built-in system minimizes injury risks during handling for a worry-free experience.
- Versatile Use – Ideal for hotels, poolsides, and residential settings.

Olimpia Sun Lounger

- Durable & Lightweight – Hardened aluminum frame with stainless steel hardware ensures strength without added weight.
- Reinforced for Longevity – Polyamide accessories enhance durability while maintaining sleek design.
- Effortless Mobility – Integrated wheels for easy repositioning.
- Space-Saving Stackable Design – Easy to store and optimize space when not in use.
- Adjustable for Maximum Comfort – Five-position backrest adapts to every relaxation need.

Eva Pro Sun Lounger

- Elegant & Durable – Ideal for beaches, hotels, pools, and fitness centers, combining style with strength.
- Reinforced Construction – Made of recyclable polypropylene resin with internal steel reinforcement for long-lasting use.
- Adjustable Comfort – Five-position backrest, including a fully flat setting for ultimate relaxation.
- Effortless Mobility – Integrated wheels allow for easy movement and repositioning.
- Sustainable Choice – Made with recycled materials and classified as eco-friendly furniture.

Carmen T Sun Lounger

- Durable & Lightweight – Made from high-quality polypropylene resin for long-lasting use with easy handling.
- Ergonomic Relaxation – Features a five-position adjustable backrest for personalized comfort.
- Effortless Mobility – Integrated wheels allow smooth movement across garden, poolside, or terrace.
- Sustainable Design – Crafted with recyclable and recycled materials, supporting eco-conscious living.
- Comfort-Enhancing Tip – Pair with our Dry Feel mattress topper for added luxury and support.

Furniture & Accessories

Discover Balliu's diverse range of chairs and tables, crafted in stylish, durable designs perfect for any outdoor space—whether poolside, beachfront, or garden. Their collection also includes ergonomic mattress toppers designed to enhance comfort on their signature sun loungers. With over 50 years of expertise, Balliu blends innovation, sustainability, and European craftsmanship to deliver outdoor furniture that stands the test of time.

INTERNAL & EXTERNAL FITTINGS

SKIMMERS

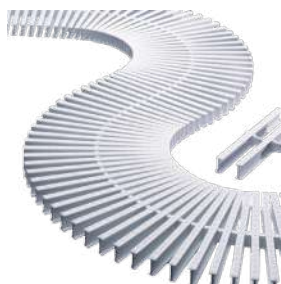

They are used to collect the surface layer of the water so it can be filtered and treated. They also come with an inner strainer basket to collect bulky foreign particles.

DRAINS

These suck water from the deepest part of the pool so that it can be completely recycled through the filtration system.

GRATINGS

UV-resistant and non-slip, we offer gratings to cover various overflow channels. Our ranges comes in different sizes and corner pieces to suit any overflow pool.

PIPES

PVC-U pipes for swimming pools. We have rigid and flexible options available to suit any pool needs for optimal water flow throughout the whole pump filtration system.

INLETS

These are used to return clean water into the pool. Return inlets should be placed on the wall facing the skimmers or at the bottom of the pool to prevent dirt from settling.

LADDERS

Swimming pool ladders are an essential fitting for both commercial and residential pools. Our range has models that come in 2, 3, 4 and 5 steps with installation accessories.

AUTOMATIC POOL ROBOTS

Founded in 1983, MAYTRONICS pioneered the field of automatic pool cleaning. It developed the world-renowned Dolphin robotic pool cleaners and, over the years, became the acknowledged market leader.

Their state-of-the-art products and technologies consistently set new standards in pool care, offering an unmatched combination of innovation and high-end aesthetic design.

All robotic pool cleaning systems are extensively tested in real-world conditions and conform to ISO 9001:2008 and CE Directives/UL Standards.

COMMERCIAL POOL VACUUM SYSTEMS

The RIPTIDE Pool Vacuum System is a high-powered, ultra-portable, battery-operated manual pool vacuum.

It is suitable for swimming pools, spas, lakes, ponds, and any water feature that doesn't have an independent vacuum point, or are simply too complex to connect to a suction pump.

RIPTIDE SL POOL VACUUM

The Riptide SL vacuum has many innovative features such as a locking bag ring, stair roller, ten-year case warranty, and 2 storage bins. Having a power cable plugged into the cart, allows you to effortlessly coil your cable and prevents damage to the cable.

It also features a fully adjustable handlebar allowing you to achieve the perfect balance of the cart, no matter what size battery you are using. Use with any battery size from a 35-amp hour battery up to a group 29.

Included:

- One Pole Coupler
- One Leaf Rake/Brush Adapter
- One Steering Knuckle
- One Standard Pole Adapter
- One Standard Bag

*Battery and Battery Charger not included

RIPTIDE XP

Riptide XP is an ultra-portable pool vacuum and battery box combo. The battery box will hold a 35-amp hour battery (providing 4 hours of run time)

Included:

- Riptide Vacuum Head with 40 feet of cable
- 35 Amp Hour Battery Box
- 1 Standard Bag
- 1 Pole Adapter
- 1 Leaf Rack Adapter
- One Steering Knuckle
- One Standard Pole Adapter

*Battery and Battery Charger not included

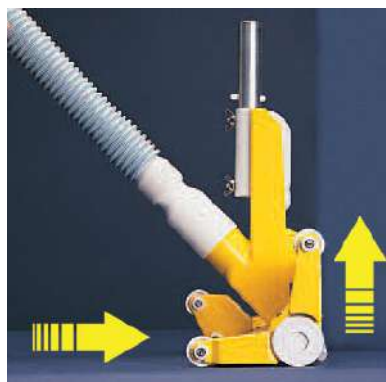

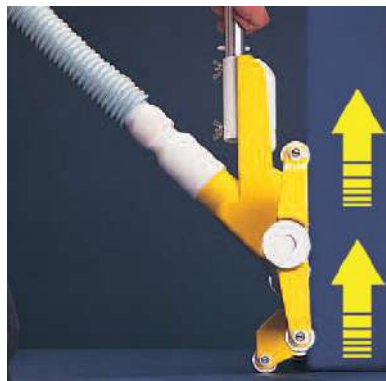

Riptide
ool Vacuum System

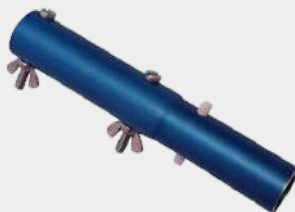

INDUSTRIAL VACUUM HEADS

Since 1974 the "big yellow vacuum head" by FAIRLOCKS has been the leading manual pool cleaning system known for its robust efficiency. The unique design allows the wheels to lead the vacuum brush to climb along corners with ease.

It effectively cleans on both vertical and horizontal surfaces with little to no adjustments throughout.

www.fairlocks.com

FEATURES

- * Ideal for both, large domestic and commercial pools with 1/2HP pumps or more
- * Faster & effective cleaning with its streamlined shape, do more in half the time
- * Central mounted brush effectively gathers solid debris into the suction stream
- * Suitable for pools of various finishes (concrete, fiberglass, etc.)
- * The special articulation carefully cleans corners, angles, steps, and other areas
- * Available with 1.5 in and 2 in hose fittings
- * Will only work with telescopic handles that accept butterfly nut fixtures and therefore will NOT work with telescopic poles that accept wishbone adapters, if required the Fairlocks P27 Handle Adapter is advised.
- * Easy to re-build and replace the parts, therefore prolonging the use
- * Spare-part packs available for purchase

NOTE

This product is for concrete and fiberglass pools ONLY. Will not work with Intex or other above ground pools.

FAIRLOCKS P27 HANDLE ADAPTER

The additional spare part accessory P27 Handle Adaptor is suited for the Fairlocks Commercial Vacuum Head allowing it to attach to standard quick release poles (wishbone).

RECHARGEABLE VACUUMS

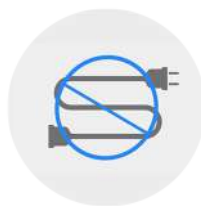

WATER TECH is one of the industry-leading brands for pool and spa vacuum cleaners.

Having developed one of the most diversified product line-ups, they provide cleaning tools for every pool, spa, and budget worldwide.

POOL BLASTER® AQUA BROOM® RECHARGE

Compact & Powerful rechargeable vacuum for pools/spas

- Run time: Up to 40 minutes
- Push Button ON/OFF Switch
- Includes (1) Reusable All Purpose Filter Bag
- Four-piece sectional pole set included
- Attaches to any standard telescopic pool pole
- Quickly removes all debris, leaves, sand, and algae
- Cordless, No Hoses Needed
- Minimum operating depth: 12.25" at a 45-degree angle
- Includes USB Cable for Charging (USB Charging Adapter Not Included)
- Lithium powered, fully rechargeable in 4 hours
- Unit dimensions: 5.0 in x 8.0 in x 16.5 in
- Unit weight: 0.86 kg

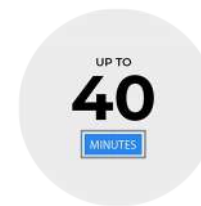

CORDLESS CLEANING

Rechargeable Lithium Ion Battery. Perfect for quick spot-cleaning in the swimming pool and easy cleaning in the Hot Tub or Spa. No hoses or cords needed.

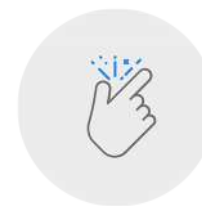

MULTI-HEAD DESIGN

Includes the versatile Omni-Directional Brush Head for general cleaning as well as the Standard Aqua Broom head for hard to get areas.

RUN TIME

The lithium-ion battery powered Aqua Broom Recharge is designed to run up to 40 minutes.

EASY OPERATION

TPush-Button operation. No forced-air operation, pumping or water hook-up required. Lightweight and easy to use by hand or attached sectional pole set.

POOL BLASTER® CATFISH® LI ULTRA

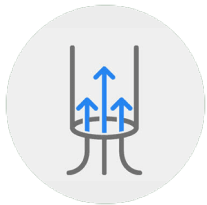

Durable. Powerful. Hand-held cleaner with extra debris capture.

- Up to 45 minutes run time
- Push-button ON/OFF switch
- Vacuum head width: 10.5"
- Four-piece sectional pole set (45" length) included
- Minimum operating depth: 12.25" @ a 45-degree angle
- (1) Reusable X-Treme multi-layer filter bag
- Lithium powered, fully rechargeable in 4 hours
- Unit size: L-19.25" x W-10.50" x H-7.0" | Unit weight: 3.40 lbs

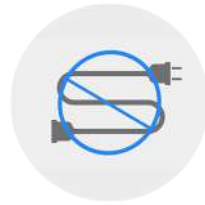

WHAT'S INCLUDED

10.5" Vacuum Head w/Soft-Bristle Brush, Wall Charger, (1) X-Treme Multilayered Filter Bag, Four-piece pole set (45" length), (1) pole adapter

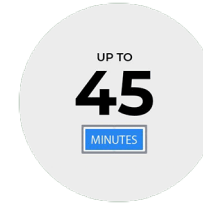

CAPTURE MORE DIRT

Catfish Li Ultra features higher debris capacity than the standard Pool Blaster Catfish to capture more leaves, dirt, sand, and debris.

CORDLESS

Rechargeable Lithium Ion Battery. No hoses or cords needed. Ideal for In-Ground Pools, Soft-Sided pools and Above Ground Pools like Intex.

RUN TIME

The lithium-ion battery powered Catfish Li Ultra is designed to run up to 45 minutes.

EASY OPERATION

Push-Button operation. Lightweight and easy to use by hand or attached sectional pole set.

REUSABLE FILTER BAGS FOR RECHARGEABLE VACUUMS

These high-quality filter bags are made from durable plastic and ultra-fine nylon mesh. Simply attach it to the respective vacuum and catch all types of fine particles in the pool such as silt, sand, dirt, oils, plaster dust, and other debris.

- Easy to install
- Durable for multiple uses
- Adds an extra layer of filtration

CLEANING TOOLS

CPA Pools is a global pool products and accessories manufacturing company based out of Montreal, Canada. With over 35 years of experience in the pool industry.

When it comes to proper pool maintenance, a filtration system, chemicals, and cleaning tools are essential to keeping a pool clean and safe. From the surface of the water to the floor and walls, there are brushes, nets, vacuums and more to assist.

WATER TESTING PRODUCTS

LOVIBOND has always specialized in scientific and technological products which make water analysis for pools and spas, not just simple but also reliable.

For over 130 years they have concentrated on water purity and continue to set new standards in the market.

Pool/Spa water testing you can trust!

NOTE: Make sure you use original ISO 9001:2015 certified Lovibond's Reagent Tablets for accurate results.

MD200 6-in-1 Digital Water Testing Kit

Versatile and compact, the MD 200 photometer can be used in varied areas of water analysis. It combines high-precision optics, with long-term stable LEDs and high-quality interference filters ensuring quick and accurate results. This 6-in-1 portable, digital water testing kit tests for Chlorine, pH, Alkalinity, Bromine, cyanuric acid, and calcium hardness.

Includes:

- Lovibond MD 200 unit
- 3 round, glass test tubes with lids
- 1 swab
- 1 stirrer
- 1 syringe
- 4 AA batteries
- 1 user manual
- Additional test tablets

Reagent Tablets

Tablet reagents make water analysis quick and easy. With precise dosing, long shelf life, and easy handling these tablets are the ideal indicators for water testing.

Measure and check the water for chlorine, pH, copper, phosphates, calcium hardness, cyanuric acid, alkalinity, and other parameters with accuracy.

SD 90 Digital Salt Water Tester

Portable, hand-held water testing kit that measures the pool parameter of salinity (salt).

Includes:

- Meter in a robust plastic case with hanger
- 2 Batteries
- Lanyard
- Instruction Manual

Scuba II 5-in-1 Digital Water Tester

Professional and handy, the Scuba II water testing device is the ideal companion for accurately and quickly testing the most important parameters of your pool. 5-in-1 water testing kit that measures the following pool parameters: chlorine, pH, bromine, alkalinity, and cyanuric acid.

Includes:

- Scuba II unit in plastic box
- 20 DPD No.1 tablet reagents
- 20 Phenol Red Photometer tablet reagents
- 10 DPD No.3 tablet reagents
- 10 CyA-Test tablet reagents
- 10 Alka-M-Photometer tablet reagents
- Instruction manual
- 2 Batteries (AAA)
- Stirring rod

2-in-1 Manual Water Testing Kit

The ultimate 2-in-1 portable water testing kit. This quick and easy tester measures chlorine and pH clearly and accurately.

All you do is scoop water into the test chambers, pop in a DPD1 tablet into the chlorine side Phenol Red tablet into the pH side, close the box, shake it and watch the tablets fizz and magically reveal the chemical balance levels of your pool.

Match up to the chart on each side and you'll know what does or doesn't need to be adjusted.

Includes:

- Pooltester in a sturdy plastic box
- Tablet reagents for 20 tests
- Instruction manual
- Stirring rod

NATURAL CLARIFIERS & ALGAECIDES

PISCIMAR, a brand specialized in chemical products to treat water in private and commercial pools. Their range of products cover all the needs for enhanced treatment and chemical balancing of the water in your pool.

Piscimar products are of high-quality and spectacular performance to solve all kinds of water problems quickly and effectively.

GOLDENFLOK

Super concentrated clarifier for swimming pools:

- Deposits grease, oils, pollen, dirt, and other particles directly to the skimmer/drain.
- Allows for easy pool maintenance.
- Compatible with all kinds of filtration systems.

CLEANPOOL SHOCK

Technical clarifier for effective shock treatments to recover very cloudy waters:

- Improves the efficiency of the filtration.
- Compatible with all types of filter media, cartridge filter and diatom filter.
- Does not change the pH and alkalinity of the water.

PHOS-OUT 3XL

Magic in a bottle - effectively eliminate phosphates and prevent algae:

- Clears cloudiness and clarifies water.
- Reduces the consumption of disinfectants.
- Improves the efficiency of salt electrolysis treatment.

ALGIBON

Multipurpose product of fivefold effect:

- It provides a bright blue color.
- Great effectiveness against algae.
- Repels water insects
- Increases water transparency.
- Does not foam.

SCALE AND STAIN CLEANER

Lime and rust cleaner to effectively lift stains and descale incrustations:

- Acts effectively in pools without damaging the tile joints.
- Ideal for the waterline and stainless steel fittings.
- Suitable for all types of pools.

FAST DOWN

Prevents the presence of insects in the pool water:

- Acts against insects present in the water or on the surface.
- Once they have fallen to the bottom, they can be permanently eliminated with a cleaner/vacuum.

AQUA STOP

Leak and pore sealant for swimming pools/spas:

- 24 hours solution.
- Cover pores or small cracks in surface or hydraulic circuit.

CELNET

Powerful scale-removing and cleaner:

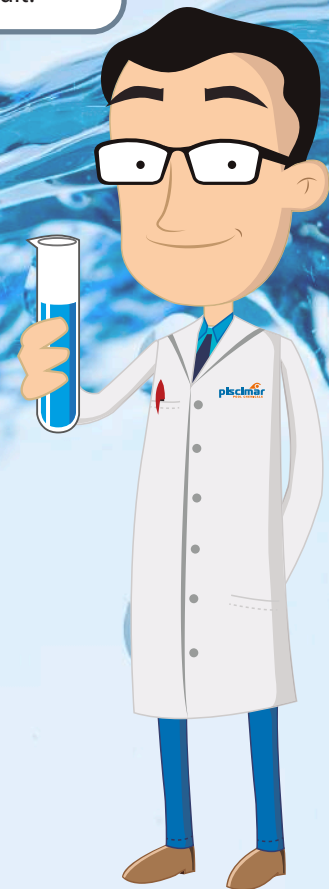

- Effectively cleans the cell of the Salt Chlorinators without damaging the titanium cell.
- Works in 10 minutes.

GREASE KILLER

Degrease your pool with ease!

- Designed for biodegradation of organic matter like human skin oils, sun tan oil, and creams.
- Targets waterline stains and prevents swimwear discoloration.
- Prevents filter clogs, ensuring prolonged filter life and efficiency.
- Versatile solution for various aquatic organic materials.
- Ultra-concentrated for efficient and potent performance.

POOL ALARMS

Pool alarms are essential safety systems designed to provide peace of mind around swimming pools when not in use. These alarms typically use motion detection technology to alert you if someone or something falls into the pool. They are easy to set up and often come with smartphone apps for remote monitoring and control.

Pool alarms are meant to be versatile and they work in various pool types. They are equipped to have connectivity with features that make them convenient for keeping an eye on an empty pool. Their easy-to-use, reliable, and advanced features make them

POOL PATROL PA-25

FEATURES

- Easy to install with no damage to your pool
- Adjustable sensitivity to reduce false alarms
- Low battery indicator
- Works in any type, shape, or size pool or spa
- Pool Patrol PA-25 is a stand-alone alarm compatible with the PA-30 receiver (if multiple alarms are required)
- Multiple alarms can be used in larger pools
- Alarms can be used with a solar cover
- Will detect children, pets, or objects weighed 7kg or more

SPECIFICATIONS

- 9-volt battery powered
- Alarms at 85+ dB at 3 meters
- Monitoring range of 85 sqm

LIFEBUOY

MODEL: G1

FEATURES

- 1 pool unit per system
- Suitable for small pools that are up to 20 ft x 40 ft
- Home to pool range: 10 m
- Equipped with motion detector sensors
- Bluetooth connectivity range: 30m
- App available for pool alerts

BCONE™

MODEL: G2

FEATURES

- 4 pool units can be connected to a single home unit
- Single pool unit coverage: 20' x 40' pool (6m x 12m)
- Home to pool range: 100 m
- Versatile and compatible with any type of pools, spas, and garden ponds
- Improved design and user interface
- Quick and easy installation
- Equipped with Wifi connectivity, and compatible with Alexa and Google Assistant
- Advanced motion detection algorithm
- Advanced app feature and can be accessed from anywhere

SAFETY FENCES

Emphasizing convenience and cost-effectiveness, safety fences are an ideal solution for safeguarding children near pools, effectively preventing toddlers from entering unattended areas.

Crafted with durable black or beige mesh, our fences guarantee safety and visibility. Their advanced features include a self-closing and a magnetic lockable self-latching mechanism, assuring unwavering reliability.

Fences are a necessity, keeping children safely away from potential harm and providing you with peace of mind. Choose our premium removable fencing to create a secure environment for your loved ones around the pool area.

Non-obtrusive Look
Neutral black/beige see-through mesh doesn't disrupt your view and blends beautifully with any pool.

No Rust or Corrosion
Solid Brass double-ended latches with stainless steel spring-loaded trigger mechanism.

Strength and Stability
High-quality black/beige polyester bonded thread.

User Friendly
A safety device that is not too difficult to use.

High-Quality Construction
with superior poly-coated open-weave mesh fabric.

SAFETY COVERS

Mesh covers are designed to serve as a secure and firmly anchored barrier for your pool when not in use. With a reliable locking mechanism, you can trust that your family will be protected, preventing any potential accidents.

Crafted from ultra-strong fabric, these covers effectively block out the majority of sunlight while enabling rainwater to effortlessly drain through. By securely fastening to the deck, pool covers seamlessly integrate with the pool's surroundings, maintaining its aesthetic appeal.

A must-have for customers seeking reduced light exposure, minimized debris in their pools, and long-lasting protection. Invest in our premium pool covers to enhance safety and preserve the pristine condition of your pool.

Quality Materials

The polyester bonded thread used in covers is higher quality than any competitors.

Precise Placement and Maximum Strength

Large X-tackling on straps is sewn manually.

High Break Strength

Made with double perimeter webbing and double-thick straps.

Superior UV Stability

Fabric made with strong and durable 87% black yarn.

Superior Weight-bearing Capacity

Built with strong, non-corrosive 302-grade stainless steel springs.

ABOVE GROUND POOLS

Above Ground Pools remain to be a popular option when it comes to outdoor home recreation. They are easy to install, disassemble, and move.

INTEX is the leading international brand that has top-notch durable above-ground pools available.

Additional Intex accessories like ladders, filters pumps, maintenance kits, and more are available to ensure proper filtration and hygiene are maintained.

REPAIR SOLUTIONS

Since 1947, WEICON has been producing specialty repair products for industrial and residential use. Their range of items includes technical sprays, special adhesives, and sealants, and high-performance assembly pastes, and more.

Repair rather than replace. With their extensive range of easy to use products, anyone can effectively repair defective components rather than purchase new ones and ultimately save on their investments.

From production, to repair, and maintenance, their products are highly versatile for multiple purposes providing solutions to various professional backgrounds.

REPAIR STICKS

Specially developed repair sticks by WEICON that achieve maximum adhesive power and simultaneous sealing effects on a variety of objects.

Weather-resistant and strong adhesive sticks to seal cracks, holes or leaks.

AQUA-FLEX

Aqua-Flex MS Polymer is an elastic adhesive that is ideally suited for bonding on wet and damp surfaces; perfect for fixing loose mosaic tiles underwater.

Resistant to weathering, UV rays, freshwater and saltwater with outstanding aging stability.

UNIVERSAL SEALING SPRAY

Sprayable plastic with a strong adhesion for the sealing of leaks in almost all kinds of surfaces — pool walls, stone, metal, plastic, wood & more.

Waterproof, Weatherproof and temperature resistant from -50 to +100°C

FLEX+BOND

A strong, high-strength power adhesive which can be used to bond nearly all materials to themselves and among each other such as metal, wood, plastic, glass, and ceramics.

Flex+bond has an ISEGA certificate & can also be used as an adhesive in foodstuff technology.

PIPE REPAIR KIT

The WEICON Pipe Repair Kit is used for the reliable and permanent sealing of cracks and leaks on both dry and damp surfaces and can even be applied underwater.

The set includes:

1 WEICON Repair Stick, 1 Fiberglass-Reinforced Plastic Repair Tape, Single Pair of Protective Gloves, Assembly Instructions

ADHESIVES AND GROUT

BASF GROUT AND GLUES are processed using premium quality materials and are made according to the international standards.

MASTER BUILDERS SOLUTIONS offers advanced BASF grout, glues, latex and waterproofing material for construction, maintenance, repair and renovation of structures.

MASTERTILE 30

Cementitious, polymer-modified tile adhesive for non-vitrified, vitrified, glass mosaic, porcelain and non-moisture sensitive natural stones tiles.

MASTERTILE 530

Coloured, latex modified cement grout for ceramic, glass mosaic, porcelain and non-moisture sensitive natural stones tiles.

MASTERTILE A 200

Multi-use water-resistant latex additive and bonding agent for cementitious mortars.

MASTERSEAL 588

An elastomeric, cement-based waterproof coating for concrete and masonry.

MOTORIZED WHEELBARROWS

MUCK-TRUCK® The Worlds Best
Selling Mini-Dumper - Power Barrow

The Muck-Truck can carry 250kgs/6cu ft and the Max-Truck can carry 350kgs/8cu ft. Both units will climb a 30 deg slope fully loaded. The machine is fitted with a genuine Honda GXV commercial-grade 5.5hp engine. The peerless transmission has 4 forward and 1 reverse gears.

Product Features

- The Muck-Truck will pay for itself in approx 20 weeks in hire-shop charges
- Easy to maintain
- Uses a Honda GXV engine
- Increased productivity
- Multiple attachments – one unit, many use
- Works on slopes where wheelbarrows can't

SAFETY FEATURES & BENEFITS`

- The Muck-Truck is fitted with a throttle lever that allows precise forward speed control.
- Balanced weight distribution allows for easy tipping.
- It is fitted with a parking brake and stops dead when the brake is released, should an operator fall or trip.
- The Muck-Truck is highly recommended for health and safety, as it increases productivity without operator fatigue.
- The rated carrying capacity enables you to move 3 times the load of the average wheelbarrow.
- The bucket/skip release allows you to control the emptying of the load which is ideal for control tipping of concrete.
- Muck-Truck, world leaders in powered wheelbarrows, offer diversity with a full range of interchangeable accessories.
- The various attachments can be changed within seconds as work is ongoing.
- The Muck-Truck and Max-Truck dumpers are fitted with a Honda GXV commercial grade engine & offers a powerful 4-wheel drive system.

MAINTENANCE SERVICES

PROTECTING YOUR INVESTMENT

MAK Pools & Gardens LLC offers weekly swimming pool and garden maintenance services for properties throughout Dubai. Each visit consists of cleaning, inspection, and preventative maintenance —all to ensure that your landscape and pool are expertly taken care of. We also offer tailor-made maintenance programs that are specific to your backyard's requirements.

All backyards require maintenance and it is important that you entrust your investment in the hands of professionals who understand exactly what you need.

We have multiple, dedicated teams of service professionals who are ready to take on any backyard service task, either as a one-time visit or via a service contract.

Our technicians are ready to keep your pool and landscape clean and pristine through regular servicing.

- Pool, spa, & water feature servicing
- Leak detection, pressure testing, & rectification
- Pool restoration, re-tiling, and refurbishment
- Tailor-made garden maintenance programmes
- Natural/Artificial Grass Installation and care
- Irrigation and Sprinkler system set-up and maintenance

We can convert your traditional chlorine pool to better sanitization options such as salt-chlorination or ionization.

Technical troubleshooters are readily available, on-call, in case any urgent issues arise.

We will test your pool water to make sure everything is in order.

THE MAK POOLS & GARDENS ADVANTAGE

Choosing MAK Pools & Gardens means choosing unparalleled quality, design, & construction standards.

Expertise You Can Trust

- We are certified member of the Pool & Hot Tub Alliance (PHTA)
- All projects are led and managed by a CSP (Certified Service Professional) accredited by the Pool & Hot Tub Alliance.
- Earning a CSP certification indicates a superior level of knowledge and expertise in the field.

High Caliber Partnerships

- Simply put, quality is our priority. We partner with leading international brands to ensure you get the very best - from pumps, filters, sanitization methods to ceramics, tiles and more - our results speak volumes.

SILVERFOX

EXPERIENCE

The CSP must have at least five years of advanced level technical service, repair, and troubleshooting experience within the pool and spa industry.

EXPERTISE

The CSP must demonstrate a mastery of topics that range from health and safety, hydraulics, product performance, and energy efficiency.

EDUCATION

The CSP must pass a rigorous examination and meet continuing education requirements to stay current on state-of-the-industry technological advances, industry developments, and business trends.

ETHICAL PRACTICE

A CSP affirms his/her commitment to integrity, safety, and quality, pledging to adhere to and uphold the APSP Code of Ethics, comply with the highest business standards and practices, and make your safety, health, and satisfaction the top priority.

Formerly the Association of Pool & Spa Professionals

"PHTA represents swimming pool, hot tub and spa manufactures, distributors, manufacturers' agents, designers, builders, installers, retailers and service professionals. PHTA offers pool and hot tub education and certification programs, provides valuable membership benefits, develops trusted industry standards and advocates for critical legislation."
